Rathbone SICAV Multi-Asset Total Return Portfolio

Investment objective

The sub-fund's objective is to deliver a greater total return (+2% after fees) than the Bank of England's Base Rate, over any three-year period by investing with the Liquidity, Equity-type risk and Diversifiers assets (LED) framework developed by the investment manager.

The sub-fund aims to deliver this return with no more than one-third of the volatility of the FTSE Developed Markets Index. There is no guarantee that the sub-fund will achieve a positive return over this, or any other, period and you may not get back the original amount you invested.

[^]The OCF includes the charges for the underlying funds held in the product. From April 2018, the ongoing charges figure has been calculated according to PRIIPs regulations, which came into effect on 1 January 2018. Holdings are based on six monthly audited accounts. Changes to fund holdings within this period may result in higher or lower ongoing charges. The OCF is included in the Annual or Interim report and are calculated biannually.
