The asset allocation shown for each strategy reflects the Benchmark weighting for each asset class as of 1 October 2023. Inflation is measured as the Consumer Price Index (CPI) from the UK's Office for National Statistics. Sterling cash is measured as SONIA (sterling overnight index average) from the Bank of England. Prior to 1 January 2021 cash was measured as 3-month UK LIBOR from the Intercontinental Exchange (ICE). Drawdown is determined by reference to the period from 30 September 2003 to 30 September 2023 and is based on simulated performance of the Benchmarks prior to their inception in January 2021.

The table shows the asset breakdown of our six risk strategies. Each risk strategy is constructed and managed in line with our distinctive LED (Liquidity, Equity-type risk, and Diversifiers) investment framework. This focuses on the relationship between different types of assets. The client's portfolio is constructed to meet their specific investment objectives, and the LED allocations shown for each risk level may therefore deviate slightly. Further detail on the six Rathbone benchmarks can be found at [Rathbones.com/benchmarks](https://www.rathbones.com/benchmarks) or from your investment manager. All bespoke portfolios benefit from Rathbones' robust investment process and research capability across traditional investment markets, together with the knowledge and experience of the Investment Manager.

FAIR VALUE ASSESSMENT

In line with the FCA's Consumer Duty fair value outcome, an assessment of the Bespoke (RoA) solution has been carried out to ensure the total cost charged to the end client is deemed reasonable when compared with the benefit received.

A number of factors were used within the value assessment, including;

- a review of service features, benefits (including past performance) and service limitations
- total costs and charges (as defined above)
- the cost to Rathbones to manufacture and distribute the service
- market rates and charges associated with other comparable competitor services

FAIR VALUE ASSESSMENT OUTCOME

Based on a review of the factors and key metrics listed above, we deem this service to provide fair value when distributed to the intended target market.
