#### **Results and dividends**

Profit before tax for the first half of 2011 was £20.6 million, up 30.4% on the £15.8 million reported in the same period last year with earnings per share of 34.28p (2010: 25.48p) up 34.5%. Underlying profit before tax of £24.2 million (stated before exceptional Financial Services Compensation Scheme (FSCS) levies, amortisation of client relationship intangibles and dilapidation provisions made in respect of our 2012 head office relocation) is up 33.7% on £18.1 million for 2010.

Our interim dividend has been increased by 1.0p per share to 17.0p per share (2010: 16.0p). The interim dividend will be paid on 5 October 2011.

#### Market and environment

In the first half of 2011 we witnessed a generally positive investment climate as markets remained resilient in spite of continued economic uncertainties, particularly in the Eurozone. The FTSE 100 index remained broadly within a 5700 to 6100 range ending the first half at 5946, up 0.8% since the beginning of the year, and the FTSE APCIMS Balanced Index was 0.9% higher at 3006. Over the same period funds under management increased 4.7% to £16.36 billion.

Interest rates have remained resolutely low for the first half of 2011. Credit conditions remain uncertain particularly in respect of the European banks, with recent developments reminding us once again of the dangers of instability in the financial system. We continue to be cautious as to where we place cash in order to manage any associated risks.

#### **Business performance**

The first half of 2011 has been positive from a growth perspective, and we were very pleased to receive the 2011 Citywealth 'Magic Circle Investment Management House of the Year' award in May 2011 and the 'Discretionary Company of the Year' award at the Investment

Week Fund Manager of the Year Awards in July 2011.

Total net organic and acquired growth in the funds managed by our investment management business was £616 million, representing an annualised growth rate of 8.4% (2010: 9.9%). Net organic growth benefited from a number of larger clients who joined us in the first half and we continue to attract new investment managers to the business with 15 investment professionals joining us over the last twelve months. Amortisation charges in respect of client relationship intangibles rose to £2.5 million from £2.1 million in the first half of 2010 which evidences this continued growth in acquired funds.

Rathbone Unit Trust Management attracted £38 million of net inflows in the first half of 2011 (2010: net outflows of £41 million in the corresponding period), and has now seen positive net fund inflows for each of the last three quarters.

Net investment management fee income of £43.7 million (2010: £34.4 million) was 27.0% higher than the first half of 2010 reflecting the continued growth in the business and an average FTSE 100 Index of 5976 on our key quarterly billing dates, up 12.1% from an average of 5331 in the corresponding period last year. Net commission income of £20.0 million (2010: £18.7 million) was up 7.0% year on year with the investment climate continuing to drive strong trading volumes. New charges were applied to client accounts from the second quarter and we continue to expect that these will add approximately 3-4 basis points to our overall revenue margin (measured against funds under management) on an annualised basis.

Net interest and other income of £6.0 million (2010: £5.4 million) remains low but reflects a marginal improvement in yields. We are not anticipating any material interest rate rises in the short term.

Underlying operating expenses (which exclude amortisation of client relationship intangibles, exceptional FSCS levies and dilapidation provisions made in respect of our 2012 head office relocation) of £49.3 million (2010: £43.9 million) are 12.3% higher than last year. This primarily reflects the growth in the business (full time equivalent headcount has increased 7.7% to 744 from 691 in June 2010), higher profit-based and growth-based variable staff awards and a busy project agenda as we continue to invest in the business. Like many businesses, we continue to see persistent inflationary pressure on supplier costs and a heavy regulatory workload and we continue to monitor costs carefully to reduce the impact of expense inflation.

We have thankfully not seen a repeat of the most unwelcome exceptional FSCS charges of £3.6 million for the 2010 financial year, however the eventual outcomes from the failure of Keydata and the various levy resubmission exercises remain uncertain. Levies that are normal in size or nature are included in other operating expenses in our consolidated interim statement of comprehensive income. We announced on 16 May 2011 that we expect to relocate our London head office to Curzon Street in 2012 and we have recognised associated costs of £1.2 million to 30 June 2011. We continue to expect total full year 2011 operating expense charges of up to £5 million in relation to the move.

Our statement of financial position at 30 June 2011 has changed little from the end of 2010 with Total equity growing 3.0% from £185.4 million at 31 December 2010 to £191.0 million at 30 June 2011. We have reported a net pension deficit of £0.3 million at 30 June 2011 which is significantly lower than the deficit of £6.6 million at 31 December 2010, largely as a result of an increase in corporate bond yields. All external loans have now been repaid so the Group is now entirely ungeared (external borrowings 31 December 2010: £3.1 million).

Related party transactions and balances for the half year ended 30 June 2011 are set out in note 15 to the condensed consolidated interim financial statements.

#### **Investing in the business**

We continue to invest in the business to make efficiencies and ensure we maintain our flexibility to grow. We migrated our London data centre successfully to a third party location in April 2011 and as mentioned above, will move our London head office to 1 Curzon Street in 2012. We have also taken

the opportunity to secure 10,300 sq ft of additional space in our Liverpool office which now houses 330 employees.

We have recently been working hard to enhance our client communications. Updated brochures, client documentation and investment literature were all launched in the period and have been welcomed both by clients and investment managers.

In July 2011 we finalised the consideration payable to Lloyds Banking Group in respect of the transaction we completed in October 2009. This transaction has introduced some 3,100 clients and just over \$800 million of funds to Rathbones, resulting in total consideration of \$20.0 million, which was paid in 2010 and represents approximately 2.5% of acquired funds.

The completion of the Lloyds Banking Group transaction makes Edinburgh our second largest office by funds under management with funds of £1.83 billion at 30 June 2011.

#### Regulation

The first half of 2011 has been a busy time responding to changing regulation. In June 2011 the Financial Services Authority (FSA) wrote publicly to firms in the wealth management industry regarding portfolio suitability, stressing its importance and indicating that some firms were the subject of ongoing regulatory action. We are not one of these and have always considered portfolio suitability to be central to what we do. We remain committed to ensuring that clients receive an excellent service.

We plan to publish the information required by the Remuneration Code alongside our normal Pillar III disclosures in the third quarter of 2011. Rathbone Investment Management will be treated as a Tier 3 entity and Rathbone Unit Trust Management as Tier 4.

We expect that, as an investment group with a banking licence, we will be regulated both by the Prudential Regulatory Authority and Financial Conduct Authority. We look forward to building effective relationships with these bodies as they take on regulation of the industry in 2012 and beyond.

#### **Principal risks**

The principal risks that face Rathbones in 2011 are described on pages 36 and 37 of our 2010 annual report and accounts and little has changed in the first half of 2011. The potential for future adverse events impacting the European banking sector may result in increased financial risk for Rathbones in the second half. We continue to mitigate

this risk by our adherence to conservative policies on the liquidity and diversity of treasury investments. The size of future Financial Services Compensation Scheme levies remains difficult to predict as Keydata investigation work is ongoing and any impact of moves by the European Union or FSA towards a pre-funded compensation scheme may also change the way in which future levies are collected.

#### **Board changes**

At our Annual General Meeting in May 2011, Mark Powell retired as Chairman of Rathbones to be succeeded by Mark Nicholls. We would like to take this opportunity to thank Mark Powell sincerely for his exceptional contribution to Rathbones over a period of more than 20 years.

On 1 July 2011 we announced that, after 10 years in the role, Richard Lanyon has decided that he will step down from the Board and his managerial responsibilities as Head of Investment Management during the course

of 2012. He will however continue as an Investment Director managing his clients' portfolios.

Following a thorough succession planning exercise, Paul Chavasse, currently Chief Operating Officer, will succeed Richard as Head of Investment Management and a process is now underway to appoint a new Chief Operating Officer.

#### **Looking ahead**

The first half of 2011 has been a positive one for Rathbones as investment markets have remained resilient and we have seen the full benefit of recent acquisitions and continuing net organic growth.

Uncertainties surrounding financial markets are continuing. Nevertheless we look to the future with confidence as Rathbones remains well positioned to take advantage of growth opportunities.

# Rathbone Brothers P

### Notes to the consolidated interim financial statements

#### 1 Basis of preparation

Rathbone Brothers Plc (the "Company") is the parent company of a group of companies (the "Group") which offers a range of investment management services and related professional advice to private individuals, trustees, charities, pension funds and the professional advisers of these clients. The Group also provides financial planning, private banking, offshore fund management and trust administration services. The Group's primary activities are set out in its annual report and accounts for the year ended 31 December 2010.

The Group's condensed consolidated interim financial statements are prepared on a going concern basis and in accordance with International Financial Reporting Standards as adopted by the EU (IFRS). These condensed consolidated interim financial statements are presented in accordance with IAS 34 Interim Financial Reporting. The condensed consolidated interim financial statements have been prepared on a going concern basis, using the accounting policies, methods of computation and presentation set out in the Group's condensed consolidated interim financial statements for the year ended 31 December 2010 except as disclosed below. The condensed consolidated interim financial statements should be read in conjunction with the Group's audited financial statements for the year ended 31 December 2010.

The information in this announcement does not comprise statutory financial statements within the meaning of section 434 of the Companies Act 2006. The Group's financial statements for the year ended 31 December 2010 have been reported on by its auditors and delivered to the Registrar of Companies. The report of the auditors was unqualified and did not draw attention to any matters by way of emphasis. They also did not contain a statement under section 498 of the Companies Act 2006.

#### Changes in accounting policies and disclosures

The presentation of segmental information (note 2) has changed to reflect the changes in the segmental information provided to the Group Executive Committee, which is the Group's chief operating decision maker. The results of the business areas previously reported as Trust and Tax Services are now included within the Investment Management segment. Fee income from trust, tax and pensions advisory activities are reported separately as fees from advisory services. Total net fee and commission income included in the consolidated interim statement of comprehensive income now comprises of net investment management fee income, net commission and fees from advisory services. Comparative balances for the six months to 30 June 2010 and the full year to 31 December 2010 have been reclassified to be consistent with the revised presentation in line with the requirements set out in IFRS 8 Operating Segments.

Two changes have been made to the presentation of the primary statements in this Interim Statement compared to the Group's latest annual report and accounts. The Consolidated income statement and Consolidated statement of comprehensive income have been re-presented as a combined Consolidated statement of comprehensive income. In addition, other reserves are now shown individually on the face of the Statement of financial position rather than in aggregate. Both changes reflect the presentation that will be adopted in the Group's forthcoming annual report and accounts.

#### Developments in reporting standards and interpretations

Standards affecting the financial statements

In the current period, there have been no new or revised Standards and Interpretations that have been adopted and have affected the amounts reported in these financial statements.

Standards not affecting the reported results or the financial position

The following new and revised Standards and Interpretations have been adopted in the current year. Their adoption has not had any significant impact on the amounts reported in these financial statements but may impact the accounting for future transactions and arrangements:

- IAS 24, 'Related Party Disclosures (revised 2009)'
- Amendments to IFRS 7 'Financial Instruments: Disclosures' as part of 'Improvements to IFRS (2010)'
- Amendments to IAS 1 'Presentation of Financial Statements' as part of 'Improvements to IFRS (2010)'
- Amendments to IAS 34 'Interim Financial Reporting' as part of 'Improvements to IFRS (2010)'

New Standards and interpretations

A number of new standards, amendments to standards and interpretations are effective for annual and interim periods beginning after 1 January 2012, and therefore have not been applied in preparing these condensed consolidated interim financial statements. None of these is expected to have a significant effect on the condensed consolidated interim financial statements and the consolidated financial statements of the Group, except for amendments to IAS 19 Employee Benefits, which is not yet endorsed by the EU but is expected to become mandatory for the Group's consolidated financial statements for the year ending 31 December 2013. The amendments to IAS 19, if applied for the year ended 31 December 2011, would reduce profit after tax by approximately £800,000 and increase actuarial gains in other comprehensive income by the same amount. There would be no effect on total equity. The Group does not plan to adopt this standard early and the extent of the impact has not been determined.

#### 2 Segmental information

#### (a) Operating segments

For management purposes, the Group is currently organised into two operating divisions: Investment Management and Unit Trusts. The information presented in this note follows the presentation for internal reporting to the Group Executive Committee.

Following the completion of the disposal of the Group's overseas trust businesses, the presentation of segmental information has been amended to include the remaining trust and tax operations within the Investment Management segment. This change reflects management's view that the retained trust related activities support the investment management business and are not sufficiently material in their own right to constitute a separate segment of the business.

Included within Investment Management net commission income is £408,000 (30 June 2010: £557,000; 31 December 2010: £1,225,000) of commission receivable from Unit Trusts. Intersegment sales are charged at prevailing market prices.

Centrally incurred indirect expenses are allocated to operating segments on the basis of the cost drivers that generate the expenditure.

#### (b) Geographic analysis

The following is an analysis of operating income analysed by the geographical location of the Group entity providing the service:

The Group's non-current assets are all substantially located in the United Kingdom.

#### (c) Major clients

The Group is not reliant on any one client or group of connected clients for generation of revenues. The Group provided investment management services to approximately 38,000 clients at 30 June 2011.

#### 3 Operating expenses

Rathbones announced on 16 May 2011 that it had exchanged contracts for a 12 year lease of 42,200 sq ft of office space on the 3rd and 4th floors of 1 Curzon Street, London W1. It is expected that the move from the current head office premises in New Bond Street, London will be completed by the end of February 2012. Charges of £1,170,000 relating to the move have been recognised in the six months ended 30 June 2011 (30 June 2010: £nil; 31 December 2010: £nil) primarily in relation to the cost of dilapidations in the two existing London properties.

#### 4 Taxation

The current tax expense for the six months ended 30 June 2011 was calculated based on the estimated average annual effective tax rate. The overall effective tax rate for this period was 28.2% (30 June 2010: 30.0%; 31 December 2010: 28.4%).

	Unaudited	Unaudited	Audited

Overseas taxation	39	21	35
Deferred taxation	1,019	3,031	249
	5,803	4,727	8,531

The UK Government has proposed that the UK corporation tax rate be reduced to 23.0% over the four years from 2011. At 30 June 2011 the first step of this reduction, to 26.0%, had been substantively enacted. The second step, to 25.0%, was substantially enacted on 5 July 2011. The underlying UK corporation tax rate for the year ending 31 December 2011 is 26.5% (2010: 28.0%). Deferred tax assets and liabilities are calculated at the rate that is expected to be in force when the temporary differences unwind, but limited to the extent that such rates have been substantively enacted.

#### 5 Dividends

An interim dividend of 17.0p per share is payable on 5 October 2011 to shareholders on the register at the close of business on 16 September 2011 (30 June 2010: 16.0p). In accordance with International Accounting Standards, the interim dividend has not been included as a liability in this interim statement. A final dividend for 2010 of 28.0p per share was paid on 18 May 2011.

#### 6 Earnings per share

Details of the share-based remuneration schemes operated by the Group can be found in the 2010 Report and accounts on pages 93 to 95.

#### 13 Contingent liabilities and commitments

- (a) Indemnities are provided to a number of directors and employees who provide trust and tax services in connection with them acting as directors of client related companies in the normal course of business. No indemnities were called on during the period end 30 June 2011 (30 June 2010 and 31 December 2010: no indemnities called on).
- (b) Capital expenditure authorised and contracted for at 30 June 2011 but not provided in the financial statements amounted to £934,000 (30 June 2010: £301,000 and 31 December 2010: £594,000).

(c) The contractual amounts of the Group's commitments to extend credit to its clients are as follows:

	Unaudited	Unaudited	Audited
	Six months to	Six months to	Year to
	30 June 2011	30 June 2010	31 December 2010

Undrawn commitments to lend of 1 year or less	4,617	11,524	7,724
	5,200	11,529	8,307

The fair value of the guarantees is £nil (30 June 2010 and 31 December 2010: £nil).

(d) The Group leases various offices and other assets under non-cancellable operating lease agreements. The leases have varying terms and renewal rights. During 2011 the Group committed to take on a 12 year lease at 1 Curzon Street London and extended the lease on the Port of Liverpool Building. The Group's agreement to lease space at 1 Curzon Street, London provides for a reset to market rents in 2018.

The future minimum lease payments under non-cancellable operating leases were as follows:

	Unaudited	Unaudited	Audited
	Six months to	Six months to	Year to
	30 June 2011	30 June 2010	31 December 2010

## Independent review report to Rathbone Brothers Plc

#### Introduction

We have been engaged by the Company to review the condensed set of financial statements in the half yearly financial report for the six months ended 30 June 2011 which comprises the consolidated interim statement of comprehensive income, consolidated interim statement of changes in equity, consolidated interim statement of financial position, consolidated interim statement of cash flows and the related explanatory notes. We have read the other information contained in the half yearly financial report and considered whether it contains any apparent misstatements or material inconsistencies with the information in the condensed set of financial statements.

This report is made solely to the Company in accordance with the terms of our engagement to assist the company in meeting the requirements of the Disclosure and Transparency Rules ("the DTR") of the UK's Financial Services Authority ("the UK FSA"). Our review has been undertaken so that we might state to the company those matters we are required to state to it in this report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company for our review work, for this report, or for the conclusions we have reached.

#### **Directors' responsibilities**

The half yearly financial report is the responsibility of, and has been approved by, the Directors. The Directors are responsible for preparing the half yearly financial report in accordance with the DTR of the UK FSA.

As disclosed in note 1, the annual financial statements of the group are prepared in accordance with IFRSs as adopted by the EU. The condensed set of financial statements included in this half yearly financial report has been prepared in accordance with IAS 34 Interim Financial Reporting as adopted by the EU.

#### **Our responsibility**

Our responsibility is to express to the company a conclusion on the condensed set of financial statements in the half yearly financial report based on our review.

#### Scope of review

We conducted our review in accordance with International Standard on Review Engagements (UK and Ireland) 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity issued by the Auditing Practices Board for use in the UK. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (UK and Ireland) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed set of financial statements in the half yearly financial report for the six months ended 30 June 2011 is not prepared, in all material respects, in accordance with IAS 34 as adopted by the EU and the DTR of the UK FSA.
